### The Auction Process

Be sure to arrive 10 or 15 minutes early. The auctioneer will gather the bidders and explain the auction procedure and ground rules to everyone. Then the first mobile storage unit is opened and the bidders will have a few minutes to peer into it, without going inside, opening any boxes, or touching anything inside the unit. The storage auction is a "live" or "verbal" auction.

Once the bidding is complete, the winning bidder must pay \$50 cleaning deposit in addition to his bid and collects a unit tag. They then may secure the unit with his or her own padlock. The auction then moves on to the next unit in the warehouse.

Once all the auctions are complete, the winning bidders meet with the auctioneer to pay for their bids and complete the auction paperwork. The storage facility will collect a cleaning deposit, which will be returned to you when you have emptied the storage locker and left it broom-swept so that it is ready to be rented to a new tenant.

You will have till 9 pm on Saturday January 21st and from 9 am-12 noon on Sunday January 22nd to clean and remove all items from your unit.

We look forward to seeing you there!
